The Striped Wolf Family  
Box 3247  
Pincher Creek, Alberta, Canada T4K 1WL

To Whom this May Concern,

We are writing this letter, to honestly say that Mr. Jeff Nemeth and his wife Mrs. Ann Nemeth have been awesome help and an inspiration to our family. They have been a wonderful, caring spiritual example of what a Christian family should be. Jeff has been a mentor to Louis. Encouraging him to follow his dreams of pursuing a life in ministry. Because of his ability to support and encourage we are in the process of moving to a bible college to begin our dreams, Ann has been a great friend and a support to Angel, being a shoulder to lean on, a friend to laugh with and a sister to joke with.

They have been attending our church Piikani lighthouse church for a year now, and have made great friends with the native people. We have adopted the Nemeths into our family spiritually. They are a kind, loving family, who are always ready to lend a helping to those in need Asking for nothing in return but friendship. We have been blessed with them moving to our community. We hope that they will stay in our community, and live among the Blackfoot. This is an honor to have them live among us and worship with us and help us.

This family has helped us to want to better ourselves and move on to a better, more productive life. Jeff and Ann are kind, loving people who are honest and have a true love for God and a great love for the Native people. They are great friends -

We have been blessed to have them as friends.

The StripedWolf family  
Pincher Creek, Alberta

## Testimony from a friend

Most of you heard about our work visa getting revoked last November when Jeff (and Elliot with him) crossed the US border to mail our last prayer letter. In answer to your prayers, our visa was reinstated just 72 hours later. In the midst of it all, our friends Louis and Angel Striped Wolf asked if they could write a letter of reference for us to use in our defense.

### Prayer and Praise Update

-Praise! A group of 4 teens and 2 adults from our church went to Oaxaca, Mexico, where they served and were encouraged by many Native believers there.

-Please pray that the support for NAIM for our ministry would rise to its required level.

-Praise and Prayer! Ann's brother Paul is getting married in June, and we are all going to make the grueling trek down in our little Escort wagon. Pray for traveling mercies—not only safety, but sanity too! Pray also as we use some of the time to report to supporters there.

-Please pray for the funds of Gladstone, and the wisdom in prioritizing their

utilization. There are SO many needs, and SO many directions to grow; we need the Lord's wisdom for growing in new directions and ing the current facilities.

# Nemeth Notes
